TAMPON TAX COMMUNITY FUND

2018

## INTRODUCTION

The purpose of the Tampon Tax Fund is to allocate the funds generated from the VAT on sanitary products to projects that improve the lives of disadvantaged women and girls.

## AIMS

The Tampon Tax Community Fund aims to support women who are most marginalised to overcome barriers that prevent them from fulfilling their potential. The programme will benefit women and girls, investing in a wide variety of projects, that make a tangible and long-term difference to health, well-being, confidence and social/economic activity, as well as addressing equality gaps.

This programme aims to fund small-scale interventions, which will make a considerable difference to the lives and happiness of women and girls by raising the aspirations of girls and women and combating the influences that affect their confidence.

## GRANTS OFFERED

- Between £5,000 and £10,000
- For a duration of up to 12 months
- For UK based organisations with a local or community reach
- Meet one or more of the Tampon Tax Community Fund objectives (below).

## WHAT DIFFERENCE WILL IT MAKE?

Women and girls can be disproportionately disadvantaged by multiple issues which are often complex in nature. Combined with these barriers and differing needs within population and geography, specialist and local support is often necessary. Within this context applicants will need to demonstrate how they meet one or more of the following objectives:

- **Building skills and confidence**, for example, supporting women and girls to learn new skills, giving them the ability to apply for new jobs and/or return to the workplace.
- **Improving health and well-being**, for example, teaching women how to look after and improve their own mental or physical health and live in good health for longer.
- **Building social networks**, for example, connecting women to others they can share similar experiences with, supporting them to feel less lonely, more valued, more able to pass on that support.

## PRIORITIES FOR SHORTLIST

**Priority will be given to:**

- Women and girl organisations, we define these as:
  - An organisation that has been established by women or girls and/or is led and staffed by women and girls
  - An organisation that has been established with the key aim of working with women and girls only

- The majority of beneficiaries served by the organisation are, and will continue to be, women and girls, and the majority of the services will reflect this.
- Grassroots organisations offering localised support.
- Organisations working with beneficiaries with multiple disadvantages.
- User led organisations that have a clear understanding of the needs they are supporting.
- Sustainable projects that provide long-term solutions to the people they are helping.

## MONITORING AND EVALUATION

Successful organisations will be required to complete an interim monitoring report or phone call half way through their project, and one monitoring report at the end of the project. We will be asking how the grant was spent, as well as the difference the project has made, what was achieved, any key issues and lessons learnt.

Funded organisations should also be willing to discuss the progress of the project over the phone as and when necessary and to host visits that will assist with learning and best practice.

Before beginning the project, we suggest reading the monitoring forms, so that necessary information can be recorded from the outset, this should include:

- Sharing the evaluation form with staff in the organisation
- Discussing and deciding specific goals based on the application
- Deciding who will write the report
- Collect data from the outset and build in time to complete the form:
  - Quantitative data (numbers) – how many people are taking part or using the service, achieved goals (e.g. employment, improved health)
  - Qualitative data (stories) – feedback from users and volunteers, observed increase in skills, confidence etc.
  - Learning – feedback from project participants, what went well, what would you do differently etc.
